

Client: SCC Limited
Name: Birley Fields MSCP
Period: **May 2013**
Value: £150K
Location: Manchester
Works: Deck Waterproofing and Coloured Wearing Course, Structural Movement Joints and Lining

The Project

SL Construction Services were selected by **SCC Ltd** to install a protective waterproofing and anti-skid system to the new car park at **Birley Fields MSCP, for the University of Manchester**.

The Works

SL Construction Services installed a spray applied, seamless waterproofing membrane to protect the car park from water penetration. A hard wearing, durable wearing course was then instated, providing an anti-skid surface to complete **Fully Re-Inforced System** approx **7,700m²**.

A combined Waterproofing and Wearing course system was successfully installed to both the upper and intermediate decks of the Car Park

Co-ordination of works were planned around other trades with good on site management and a direct skilled workforce from **SL Construction Services** providing flexible and assured safety and quality at every stage of the project.

The project has been completed ahead of time and on budget.
