

**Client:** University of Liverpool  
**Name:** Student Area  
**Period:** 2 phases 2013 & 2015  
**Value:** £400k  
**Location:** Liverpool  
**Works:** New R.C Highways, Drainage, Public Realm, and Structural Waterproofing.

## The Project

**SL Construction Services** were appointed by the **University of Liverpool** to renew and upgrade an area of public space and Highways as part of the Student Village upgrading programme.

Working in a busy city centre site across 5 locations our in house Project Management Team co-ordinated all works with the University, other stakeholders, shops and emergency services.

Before:

After:

## The Works

The works consisted of new R.C structures and new Structural Waterproofing over Rail Culverts, Drainage, Highways works , Kerbs, Drainage and Hard landscaping.

## Completion

All work was programmed, in phases and delivered by our dedicated site team and direct workforce.

Co-ordination of works were planned around other trades with good on site management and a direct skilled workforce from **SL Construction Services** providing flexible and assured safety and quality at every stage of the project.

The project has been completed ahead of time and on budget.
