

Client: Bedfordshire County Council
Name: West Street Car Park
Period: **December 2015**
Value: £160k
Location: Leighton Buzzard
Works: Deck Waterproofing and Coloured Wearing Course, Structural Movement Joints and Lining

The Project

SL Construction Services were selected by **Bedfordshire County Council** to install a protective Waterproofing and Anti-Skid system to the existing car park at Leighton Buzzard.

The Works

Scope of works involved the reinstatement of the **Wearing Course System** approx. **4500m²** of the existing car park and ramps including **715m² Patch Repairs** .

All lining was also completed in a single one stop package.

All works were planned to strict environmental and safety guidelines prior to commencement.

Early involvement meant works were phased and planned to ensure the system was not damaged as construction work progressed ahead of programme.

Finished application.

Completion

The rapid application as well as the speed of the on-site team ensured that the work was completed ahead of time. **SL Construction Services** provided a comprehensive package of technical, planning and quality assurance expertise to ensure smooth project delivery.

The long service life and ease of future maintenance of the products used by **SL Construction Services** will provide a cost effective solution, complete protection and will reduce the car park's whole life carbon footprint.
